MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMIC

Overview: The global economic growth was estimated at a slower 3.2% in 2022, compared to 6% in 2021 (which was on a smaller base of 2020 on account of the pandemic effect). The relatively slow global growth of 2022 was marked by the Russian invasion of Ukraine, unprecedented inflation, pandemic induced slowdown in China, higher interest rates, global liquidity squeeze and quantitative tightening by the US Federal Reserve. The challenges of 2022 translated into moderated spending, disrupted trade and increased energy costs. Global inflation was 8.7% in 2022, among the highest in decades. US consumer prices increased about 6.5% in 2022, the highest in four decades. The Federal Reserve raised its benchmark interest rate to its highest in 15 years. The result is that the world ended in 2022 concerned that the following year would be slower.

The global equities, bonds, and crypto assets reported an aggregated value draw down of US\$ 26 trillion from peak, equivalent to 26% of the global gross domestic product (GDP). In 2022, there was a concurrently unique decline in bond and equity markets; 2022 was the only year when the S&P 500 and 10-year US treasuries delivered negative returns of more than 10%.

Gross FDI inflows – equity, reinvested earnings and other capital – declined 8.4% to US\$ 55.3 billion in April-December. The decline was even sharper in the case of FDI inflows as equity: these fell 15% to US\$ 36.75 billion between April and December 2022. Global trade expanded by 2.7% in 2022 (expected to slow to 1.7% in 2023).

The S&P GSCI TR (Global benchmark for commodity performance) fell from a peak of 4,319.55 in June 2022 to 3,495.76 in December 2022. There was a decline in crude oil, natural gas, coal, lithium, lumber, cobalt, nickel and unreal realizations. Brent crude oil dropped from a peak of around US\$ 120 per barrel in June 2022 to US\$ 80 per barrel at the end of the calendar year following the enhanced availability of low-cost Russian oil.

THE EMERGING MARKETS AND DEVELOPING ECONOMIES ARE ESTIMATED TO HAVE GROWN THEIR GROSS DOMESTIC PRODUCT (GDP) AT AN AVERAGE OF 4.0% IN 2022 COMPARED TO 6.9% IN 2021.

Regional Growth	FY 2023	FY 2022
World Output	3.2	6.1
Advanced Economies	2.5	5.0
Emerging and Developing Economies	3.8	6.3

PERFORMANCE OF MAJOR ECONOMIES

United States: Reported GDP Growth of 2.1% compared to 5.9% in 2021.

China: GDP growth was 3% in 2022 compared to 8.1% in 2021.

United Kingdom: GDP grew by 4.1% in 2022 compared to 7.6% in 2021.

Japan: GDP grew 1.7% in 2022 compared to 1.6% in 2021.

Germany: GDP grew 1.8% compared to 2.6% in 2021.

OUTLOOK

The global economy is expected to grow 2.8% in 2023, influenced by the ongoing Russia-Ukraine conflict. Concurrently, global inflation is projected to fall marginally to 7%. Despite these challenges, there are positive elements within the global economic landscape. The largest economies like China, the US, the European Union, India, Japan, the UK, and South Korea are not in recession. Approximately 70% of the global economy demonstrates resilience, with no major financial distress observed in large emerging economies. The energy shock in Europe did not result in a recession, and significant developments, including China's progressive departure from its strict zero-Covid policy and the resolution of the European energy crisis, fostered optimism for an improved global trade performance. Despite high inflation, the US economy demonstrated robust consumer demand in 2022. Driven by these positive factors, global inflation is likely to be still relatively high at 4.9% in 2024. Interestingly, even as the global economy is projected to grow less than 3% for the next five years, India and China are projected to account for half the global growth. (Source: IMF)

INDIAN ECONOMIC OVERVIEW

OVERVIEW: Even as the global conflict remained geographically distant from India, ripples comprised increased oil import bills, inflation, cautious government and a sluggish equity market. India's economic growth is estimated at 6.8% in 2022-23. India emerged as the second fastest-growing G20 economy in 2022-23. India overtook UK to become the fifth-largest global economy. India surpassed China to become the world's most populous nation

According to the India Meteorological Department, the year 2022 delivered 8% higher rainfall over the long-period average. Due to unseasonal rains, India's wheat harvest was expected to fall to around 102 million metric tons (MMT) in 2022-23 from 107 MMT in the preceding year. Rice production at 132 million metric tons (MMT) was almost at par with the previous year. Pulses acreage grew to 31 million

hectares from 28 million hectares. Due to a renewed focus, oilseeds area increased 7.31% from 102.36 lakh hectares in 2021-22 to 109.84 lakh hectares in 2022-23.

India's auto industry grew 21% in 2023; passenger vehicle (UVs, cars and vans) retail sales touched a record 3.9 million units in 2023, crossing 3.2 million units in 2019. The commercial vehicles segment grew 33%. Two-wheeler sales fell to a seven-year low; the three-wheeler category grew 84%.

Till the end of Q3FY23, total gross non-performing assets (NPAs) of the banking system fell to 4.5% from 6.5% a year ago. Gross NPA for 2023 was expected to be 4.2% and a further drop is predicted to 3.8% in 2023-24.

As India's domestic demand remained steady amidst a global slowdown, import growth in 2023 was estimated at 16.5% to US\$ 714 billion as against US\$ 613 billion in 2022. India's merchandise exports were up 6% to US\$ 447 billion in 2023. India's total exports (merchandise and services) in 2023 grew 14 percent to a record of US\$ 775 billion in 2023 and is expected to touch US\$ 900 billion in 2024. Till Q3FY23, India's current account deficit, a crucial indicator of the country's balance of payments position, decreased to US\$ 18.2 billion, or 2.2% of GDP. India's fiscal deficit was estimated in nominal terms at ~ ₹17.55 lakh crore and 6.4% of GDP for the year ending March 31, 2023.

India's headline foreign direct investment (FDI) numbers rose from US\$ 74.01 billion in 2021 to a record US\$ 84.8 billion in 2021-22, a 14% Y-o-Y increase, till Q3FY23. India recorded a robust US\$ 36.75 billion of FDI. In 2022-23, the government was estimated to have addressed 77% of its investment target (₹50,000 crore against a target of ₹65,000 crore).

India's foreign exchange reserves, which had witnessed three consecutive years of growth, experienced a decline of approximately US\$ 70 billion in 2022, primarily influenced by rising inflation and interest rates. Starting from US\$ 606.47 billion on April 1, 2022, reserves decreased to US\$ 578.44 billion by March 31, 2023. The Indian currency also weakened during this period, with the exchange rate weakening from ₹75.91 to a US dollar to ₹82.34 by March 31, 2023, driven by a stronger dollar and increasing current account deficit. Despite these factors, India continued to attract investable capital.

The country's retail inflation, measured by the consumer price index (CPI), eased to 5.66% in March 2023. Inflation data on the Wholesale Price Index, WPI (calculates the overall price of goods before retail) eased to 1.3% during the period. In 2022, CPI hit its highest of 7.79% in April; WPI reached its highest of 15.88% in May 2022. By the close of the year under review, inflation had begun trending down and in April 2023 declined below 5%, its lowest in months.

India's total industrial output for FY23, as measured by the Index of Industrial Production or IIP, grew 5.1% year-on-year as against a growth of 11.4% in 2021-22.

India moved up in the Ease of Doing Business (EoDB) rankings from 100th in 2017 to 63rd in 2022. As of March 2023, India's unemployment rate was 7.8%.

In 2022-23, total receipts (other than borrowings) were estimated at 6.5% higher than the Budget estimates. Tax-GDP ratio was estimated to have improved by 11.1% Y-o-Y in RE 2022-23.

The total gross collection for 2023 was H18.10 lakh crore, an average of H1.51 lakh crore a month and up 22% from 2021-22. India's monthly goods and services tax (GST) collections hit the second highest ever in March 2023 to H1.6 lakh crore. For 2022-23, the government collected H16.61 lakh crore in direct taxes, according to data from the Finance Ministry. This amount was 17.6% more than what was collected in the previous fiscal.

Per capita income almost doubled in nine years to H172,000 during the year under review, a rise of 15.8% over the previous year. India's GDP per capita was 2,320 US\$ (March 2023), close to the magic figure of US\$ 2500 when consumption spikes across countries. Despite headline inflation, private consumption in India witnessed continued momentum and was estimated to have grown 7.3% in 2022-23.

OUTLOOK

There are green shoots of economic revival, marked by an increase in rural growth during the last quarter and appreciable decline in consumer price index inflation to less than 5% in April 2023. India is expected to grow around 6-6.5% (as per various sources) in 2024, catalysed in no small measure by the government's 35% capital expenditure growth by the government. The growth could also be driven by broad-based credit expansion, better capacity utilisation and improving traded elasticities. Headline and core inflation could trend down. Private sector investments could revive. What provides optimism is that even as the global structural shifts are creating a wider berth for India's exports, the country is making its largest infrastructure investment. This unprecedented investment is expected to translate into a robust building block that, going ahead, moderates logistics costs, facilitates a quicker transfer of products and empowers the country to become increasingly competitive. This can benefit India's exports in general, benefiting several sectors. The construction of national highways in 2022-23 was 10,993 km; the Ministry of Road Transport and Highways awarded highway contracts of 12,375 km in the last financial year.

(Source: IMF)

UNION BUDGET 2023-24 PROVISIONS

The Budget 2022-23 sought to lay the foundation for the future of the Indian economy by raising capital investment outlay by 33% to H10 lakh crores, equivalent to 3.3% of GDP and almost three times the 2019-20 outlay, through various projects like PM Gati Shakti, Inclusive Development, Productivity Enhancement & Investment, Sunrise Opportunities, Energy Transition and Climate Action, as well as Financing of Investments. An outlay of H5.94 lakh crore was made to the Ministry of Defence (13.18% of the total Budget outlay). An announcement of nearly H20,000 crores was made for the PM Gati Shakti National Master Plan to catalyse the infrastructure sector. An outlay of H1.97 lakh crore was announced for Production Linked Incentive schemes across 13 sectors. The Indian government intends to accelerate road construction in 2023-24 by 16-21% to 12,000-12,500 km. The overall road construction project

pipeline remains robust at 55,000 km across various execution stages. These realities indicate that a structural shift is underway that could strengthen India's positioning as a long-term provider of manufactured products and its emergence as a credible global supplier of goods and services.

GLOBAL SUGAR SECTOR REVIEW

As per the data published by ISO in February, 2023 in Sugar Season 2022-23, global production is expected to reach 180.431 MT, downgrading from a previous revision of 182.14 MT, due to a number of factors such as unsatisfactory European Union harvest, truncation of the UK beet harvest owing to extremely cold temperatures, snow fall in mid-December and lower sugar yield from India. Global sugar consumption is expected to reach 176.280 MT, owing to an increasing population. According to the latest report by S&P Global, the projected surplus for SS 2022-23 is further trimmed and the sugar production and consumption may be virtually balanced, compared to an estimated surplus of around 1 million tons a month ago and an estimated surplus of 3.77 million tons a few months ago. This is owing to a reduction in sugar production in Asian countries.

The southern hemisphere harvests extended beyond their usual ending dates leading to extra supply for the Sugar Season 2022-23 balance; however, it did not have a significant impact on global trade flows. The Indian government's reluctance to commit to further export licensing dampened the prospects of export availability for Sugar Season 2022-23.

The faster-than-average drop in the crushing rate in India and Thailand have reduced output expectations from these two countries in the next season as well. There is a 50% probability of El-Nino event in the second half of 2023, which may result in drier weather in Asia and wetter weather in Brazil.

The continued Russia-Ukraine war led to the materialisation of export opportunities for Indian for white sugar. In Sugar Season 2021-22, Indian exports totaled 11.058 million tons and an increase in the adjustment for unknown net trade was introduced, with a total of 0.951 million tons in 2021-22 and 0.600 million tons in 2022-23.

INDIAN SUGAR INDUSTRY OVERVIEW

According to the first estimate drawn by ISMA, Indian sugar yield was pegged at 36.5 million tons during SS 2022-23, after considering sugar sacrifice of 4.5 million tons, taking the gross sugar production to nearly 41 million tons. However, this estimate further reduced to 34 million tons of sugar with a sugar sacrifice level at 4.5 million tons, owing to the declining yield and recovery from the States of Maharashtra and Karnataka.

This estimate was downgraded to 33.6 million tons of sugar by trade bodies and Government of India, with some independent trade houses expecting the year's yield to remain below the 33 million ton-mark. As per the latest update, ISMA trimmed sugar production estimate to 32.8 million tons from the earlier 34 million tons. The decrease in tail-end crushing in Maharashtra and Karnataka have lowered the production estimate in Maharashtra to less than 11 million tons and less than 5.6 million tons respectively. Many mills in Maharashtra and Karnataka concluded their crushing operations even before

March 31, 2023 due to lower yields caused by unseasonal rainfall, which led to a lower availability of sugarcane in these two States. This, in turn, could reduce exports, strengthening global sugar realisations and providing Brazil and Thailand an opportunity to address the void created by India.

Under the Maximum Admissible Export Quantity (MAEQ) for SS 2022-23, the government announced the first tranche of export of 6 million tons; out of which around 5 million tons were exported. Most of the sugar mills in U.P. traded deals with mills in Maharashtra and swapped their export quotas with domestic quotas. Raw sugar exports decreased year-on-year to Malaysia, Bangladesh, Far East and also the Middle East with a large part of the Indian surplus already exported.

Total Indian acreage under sugarcane was placed at nearly 59 lakh hectares in 2022-23 Sugar Season (SS), 6% higher than the 2021-22 sugar season's cane area of nearly 55 lakh hectares. Sugar consumption was expected to increase on account of the appetite coming from India's largely unorganized catering segment, one of its largest consumers. India's unorganised grocery segment was expected to report positive growth due an increasing population and disposable incomes.

Uttar Pradesh, Maharashtra and Karnataka accounted for 80% of India's total sugar production. Within India, sugarcane area in Uttar Pradesh was placed at 23.08 lakh hectares compared to 23.01 lakh hectares in SS 2021-22. Cane area in Maharashtra increased to 14.41 lakh hectares in SS 2022- 23as against 13.50 lakh hectares in the previous year. Sugar production in U.P. was estimated at ~100 lakh tons.

Sugar production in Maharashtra was initially estimated at ~124 lakh tones in 2022-23 SS after diversion towards ethanol. This estimation is expected to witness a significant downwards revision due to lower yield. Karnataka's sugarcane area marginally increased to 6.5 lakh hectares in SS 2022-23 compared to 5.11 lakh ha in SS 2021-22. The monsoon in 2022 was considered to be above normal, adequate water reservoir levels and standing crop conditions were expected to drive Karnataka's sugarcane production.

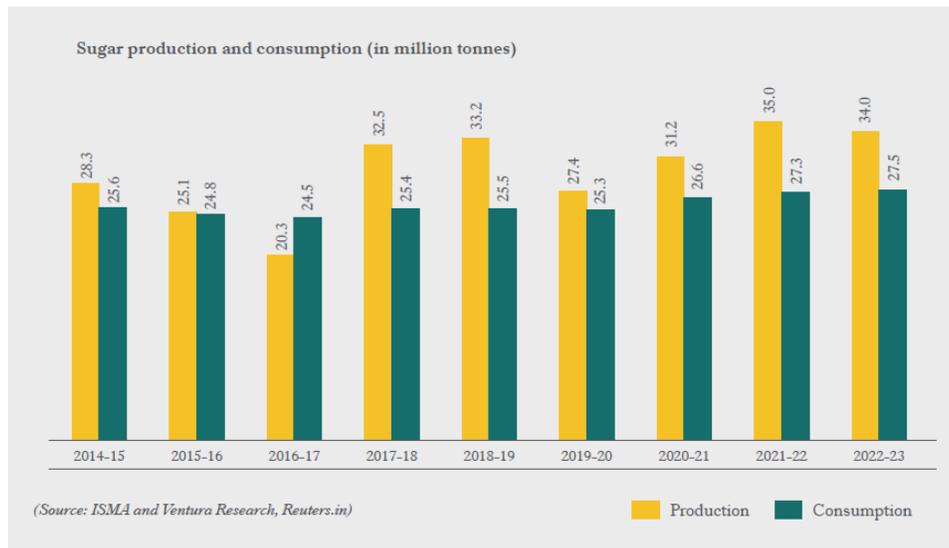

The states of Tamil Nadu, Haryana, Madhya Pradesh, Bihar, Uttarakhand, Andhra Pradesh, Telangana, Punjab, Chhattisgarh, Rajasthan and Odisha were estimated to collectively produce about 70 lakh tons of sugar in the 2022-23 SS (after ethanol diversion). India is expected to retain its position as the largest consumer, one of the largest sugar producers and one of the largest sugar exporters.

MAJOR SUGAR MANUFACTURING GEOGRAPHIES

BRAZIL

In the first half of February 2023, Brazil processed 73,180 MT of sugarcane, resulting in a negligible sugar production of only 2,360 MT. However, on a cumulative basis, sugar production increased by 4.5% to 33.5 MMT and the sugarcane crush reached 542.47 MMT, a 3.8% increase from the previous year. During the bi-week period, 11 corn\ ethanol plants were operational and cumulative corn ethanol production increased by 26% compared to the previous year.

The weather was favorable for the growth of sugarcane since the beginning of 2023, resulting in an increase in the estimated availability of sugarcane for the 2023-24 season. The total sugarcane crush is estimated to be 590 MMT, higher than the previous forecast of 581 MMT from a survey conducted in November 2022, while sugar production is expected to reach 36.7 MMT.

There was a marginal decrease in the harvested areas, owing to the switch from sugarcane to soybeans and corn production. There was a marginal change in Brazil's sugar/ethanol production at 45% sugar and 55% ethanol as producers are likely to keep focusing on sugar production.

Despite expectations of a large crop yield in CS Brazil in SS 2022-23, sugar supplies remain limited in the short term. Whereas, production risks linger in North – Northeast Brazil, the upcoming SS 2023-24 is expected to be a season of bumper sugar production for Central South Brazil.

THAILAND

The total sugarcane crush for the year could reach 81 MMT, increasing by 7 MMT from the previous year. There is a possibility of achieving a record high industrial sugar yield of 117 kg per MT of sugarcane for the 2022-23 season, exceeding the current assumption of 114.5 kg per MT. This increase in yield could result in an additional 250,000 to 300,000 metric tons of sugar production and a corresponding increase in raw sugar exports for the 2022-23 season.

Cumulative sugar exports from Thailand for the period of October to January reached 1.79 MMT a 3% increase from the previous year. The cane estimate for upcoming SS 2023-24 is expected to be on the lower side.

USA

Estimated sugar production is expected to remain at 8.2 million tons; imports could decline 6% to 3.1 million tons, based on the anticipated minimum levels under World Trade Organization and free-trade agreements, imports from Mexico, re-exports and high-tier tariff imports. Consumption is expected to remain unchanged, but stocks are expected to decline following a decline in production and imports.

CHINA

China's sugar production was estimated at 4 million tons, due to rising cane sugar and beet sugar production. Consumption is expected to rise as COVID-related restrictions ease and imports could taper following high global sugar prices encouraging a drawdown of stocks. These factors suggest a relatively stable sugar market in China. While the numbers are still uncertain, China is expected to remain a dominant sugar importer.

THE EUROPEAN UNION AND THE UK

European Union production is expected to go down by 329,000 tons to 16.2 million as farmers brought down sugar beet plantings in favour of more lucrative crops like corn and sunflower. In 2022-23, the EU-

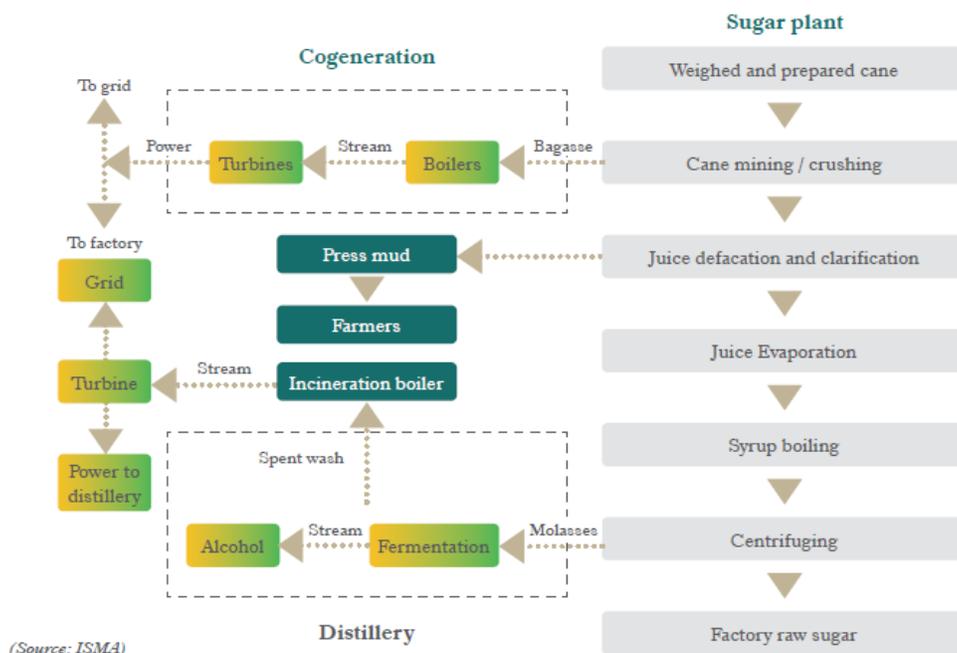

27 could import 2 MMT of sugar - the highest in six years, as even imports under the full duty are almost profitable due to high local prices. The lower planted area is expected to translate in to production cut.

RUSSIA

As of 20 February 2023, Russia produced 5.9 MMT of sugar, with only two factories in operation. In comparison, last year's sugar beet processing had already ended by the same time, resulting in a lower sugar production of 470,000 MT.

CATALYSTS OF SUGAR DEMAND IN INDIA

FAVOURABLE DEMOGRAPHICS:

India has emerged as the most populous country in 2023. This population growth will catalyse demand for food, fuel and power sectors, among others, where sugarcane is an essential resource.

EXPORTS

There is a growing traction for sugar in developing economies like India, China and Middle East owing to increased disposable incomes, urbanisation and evolving food habits.

ECONOMICAL ALTERNATIVE

Sugar is the most preferred among other alternatives, across all socioeconomic age groups, due to its affordability and easy availability across retail formats (convenience stores, departmental stores, supermarkets, hypermarkets, etc.)

TRACTION IN CONFECTIONERY AND SNACK SEGMENT

The volume of Indian confectionery and snack segment (valued at US\$ 110.90 billion) is expected to grow at a CAGR of 7.55% during 2023-27.

FOOD AND BEVERAGE DEMAND GROWTH

The food and beverages market size increased globally from US\$ 6,729.54 billion in 2022 to US\$ 7,221.73 billion in 2023, growing at a compound annual growth rate (CAGR) of 7.3%, catalyzing sugar demand.

DIVERSE APPLICATIONS

Sugar is widely used in the pharmaceutical and skin care industry as well as the manufacturing of scrubs due to its exfoliating properties.

INDIAN ETHANOL SECTOR OVERVIEW

Ethanol is a key by-product for integrated sugar mills enjoying downstream applications in oil marketing companies (that blend ethanol with fuel). Sugar plants in India increased ethanol production to 4.6 billion litres in 2022 compared to 3.35 billion litres in 2021. The country imported around 87.3% of its fuel needs and is seeking ways to increase ethanol blending to moderate its dependence on imports. In 2021, the ethanol production capacity in India through molasses-based distilleries was 426 crore litres while that from grain-based distilleries stood at 258 crore litres.

India's fuel ethanol consumption is expected to reach 6 billion litres in the marketing year 2022-23 compared to 4.59 billion litres in the marketing year 2021-22, enhancing blending to 12%.

India's efforts to increase ethanol blending in petrol have multiple benefits such as reducing oil imports, lowering carbon emissions and bolstering sugar mill profitability. The country set a target of 20% ethanol blending with petrol by 2025, which would require around 12 billion litres of installed ethanol production capacity. This includes 6-6.5 billion litres from sugarcane and 5-5.5 billion litres from grain or corn side interventions. Some sugar companies have already established dual-feed ethanol plants to utilize multiple sources for ethanol production. Improved blending will lead to moderation of sugar production, rationalization of fuel imports and reduction of carbon footprint.

INDEPENDENT AUDITOR'S REPORT

To the Members of Dollex Agrotech Limited

Report on the Standalone Financial Statements**Opinion**

We have audited the accompanying standalone financial statements of Dollex Agrotech Limited, which comprise the Balance Sheet as at March 31, 2023, and the Statement of Profit and Loss (including other comprehensive income), Statement of changes in equity and Cash Flow Statement for the year ended, notes to the financial statement including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the company as at 31st March, 2023, and its profit, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the accompanying financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the accompanying financial statements as a whole and in forming our opinion. Based on facts and circumstances of the entity under audit, we conclude that there are no key audit matters to communicate.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's

Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, and financial performance of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by section 143 (3) of the Act, we report that:
 - a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - e) On the basis of the written representations received from the directors as on 31st March, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF DOLLEX AGROTECH LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Dollex Agrotech Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Notes require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
